

ATCO Electric is a part of the ATCO Group of Companies. ATCO Group, with more than 7,500 employees and assets of approximately \$9.9 billion, delivers service excellence and innovative business solutions worldwide with leading companies engaged in Utilities (pipelines, natural gas and electricity transmission and distribution), Energy (power generation, natural gas gathering, processing, storage and liquids extraction), Structures & Logistics (manufacturing, logistics and noise abatement) and Technologies (business systems solutions).

ATCO Electric pursues regulated distribution and transmission projects and plays a key role in the development of Alberta's industrial sector. The company is headquartered in Edmonton and has 38 offices throughout its service area in Alberta.

ATCO Electric serves nearly 207,000 customers in northern and east-central Alberta – resource rich areas of the province where electricity is an essential component of industrial development. The company has more than 80 years experience serving this challenging, diverse territory.

The company builds, operates and maintains a safe, reliable system of transmission and distribution lines, delivering power to homes, farms and businesses, in cities, towns and Aboriginal communities – 245 communities in all.

- > ATCO Electric has nearly 1,600 employees.
- > ATCO Electric operates and maintains nearly 70,000 km of transmission and distribution lines.
- > The company operates an additional 12,000 km of distribution power lines on behalf of Rural Electrification Associations.

- > In 2009, ATCO Electric introduced the Alberta utility industry's first hybrid maintenance vehicle to its fleet.

ATCO Electric is on call 24 hours a day to respond to power line and related emergencies.

ATCO Electric has three divisions:

- > **Capital Projects** -- transmission and large distribution construction.
- > **Operations** -- manages the operation and maintenance of existing transmission, distribution and technology assets along with new assets as they are commissioned into service.
- > **Development** -- key strategic initiatives for long-term growth for ATCO Electric and the North of 60 operations, including hydro development.

Through its subsidiaries – Yukon Electrical Company Limited, Northland Utilities (NWT) Limited and Northland Utilities (Yellowknife) Limited – the company serves customers in Canada's North.
